

Bill Hutson
Trustee since 2001

Role on Current Board

Bill chairs the Environmental Committee, serving with Ted Stiles for over 20 years. Their goal is to keep pests such as greenhead flies and mosquitoes to a minimum so that everyone can enjoy Holgate. Bill also sponsors the Boy Scouts' participation in the annual Dune Grass Planting Day, finishing off with a BBQ for their efforts. Recently, Bill retired from his position as President of the Joint Council of LBI Taxpayer Associations (JCTA), which he held for 10 years.

Connection to Holgate

Having owned rental properties in Beach Haven, Ship Bottom and Beach Haven West, Bill became a homeowner in Holgate in 1987. Three years later, he sold his properties to purchase Lorry's Island End Motel on Washington Ave. Since then, hundreds of the friends and relatives of Bill's neighbors have vacationed at his clean and affordable spot.

Professional Experience

Bill's professional career began in 1975 as the first Sales and Marketing Specialist for Garden State Business Machines in the Trenton area. His success led him to become the director of three additional offices, winning multiple awards. When the business was purchased by Danka, Bill entered real estate full-time, including acquiring Lorry's Island End Motel In Holgate, a nearby rental home, and a number of rental properties in Texas.

Personal Profile

Born and raised in Uniontown, PA, Bill graduated from Waynesburg University with a business degree, and completed US Army service with an honorable discharge. In his youth, Bill and his brother Jes would travel with their Cousin Terri and Aunt Chris to Beach Haven, where they stayed at his Uncle Mitch and Aunt Gen's House. Bill credits them with teaching him about all aspects of LBI real estate and providing the foundation for owning and operating Lorry's and other rental properties with his brother Jes.

Why I Became a Trustee

"I became a HTA Trustee to positively effect our quality of life, including beach replenishment, dune planting and reducing the number of very nasty greenhead flies and mosquitoes. As anyone familiar with Holgate for over 25 years would know, greenheads could make life miserable for residents and vacationers here; certain realtors would not show Holgate properties. Since then, we have made significant progress in greatly reducing the greenheads with about 150 HTA traps built and maintained in partnership with Long Beach Township, Lorry's, and many Holgate homeowners. I hope, God willing, to continue to make a positive difference in Holgate."
